

BECOME AN ALL-STAR IN THE CLASSROOM!

Simplified Systems of Study

Presented by: Rosanne M Joseph

1st Session: Tuesday, November 13, 2007

Location: Instructional Annex 5910 Pecan St., Crosby

Time: 6-7 pm

Kick Off the 2007/2008 School Year!

Now that football season is almost over, why not tackle some of those academic interferences. As a speech-language pathologist and dyslexia coordinator I believe that learning techniques are beneficial to all students. When I was in high school someone came to my school with a study skills presentation. It changed how I approached study and empowered me to be a much better student. If taken seriously these techniques can improve your confidence, raise your standards and give you tools for lifelong academic success.

This is a **free** seminar to all CISD middle and high school students who are interested in learning how to study core curriculum subjects as well as learning how to improve overall study habits, reading comprehension, spelling and handwriting.

If there is enough interest, the following sessions will be offered:

- Making Better Use of Your Time...Improve your study habits (2 sessions)
- Using structured, organized techniques to improve reading comprehension (3 sessions)
- Simple techniques to improve your spelling and handwriting (1 session)
- The different types of study for different subjects (1 session)

The sessions will be fun, fast paced and informative, focusing on scientifically based techniques.

Any student and/or parent of a student attending CISD is welcome.

If interested return this form to the campus counselor or call: 281-328-9372
